RS 1000 		1071	1000	30	250	2.67		

Installation Guide

Panduan Instalasi

Step

1

In order for the rainwater to flow down nicely, the recommended roof slope angle is 10° minimum.

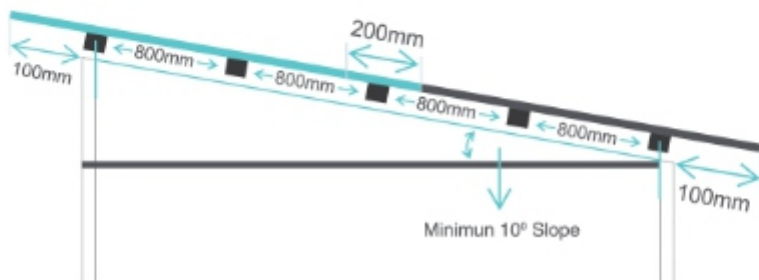

Agar air hujan mengalir ke bawah dengan baik, sudut kemiringan atap yang dianjurkan adalah 10° minimum.

Step

2

The recommended maximum purlin distance is 800mm, overlap is 200mm, and overhang distance is 100mm.

Jarak purlin maksimum yang disarankan adalah 800mm, overlap 200mm, dan jarak overhang 100mm.

Step

3

Install Alderon RS with recommended overlap and weather seal.

Pasang Alderon RS dengan overlap yang direkomendasikan dan seal tahan cuaca.

Recommended Overlap

Rekomendasi Overlap :

Roma : $1\frac{1}{2}$ Gelombang

Greca : 1 Gelombang

Trimdeck : 1 Gelombang

RS 1000 : 1 Gelombang
