SANLEX Prodigio dengan keunggulan Lightscattering Technology yang membentuk lapisan istimewa pembias cahaya, menghasilkan tampilan elegan, dengan permukaan halus dan warna merata. Daya tutupnya yang maksimal membuat SANLEX Prodigio lebih efisien digunakan. Tak perlu berkali-kali mengecat, cukup 2x lapis* warna telah menutup maksimal.

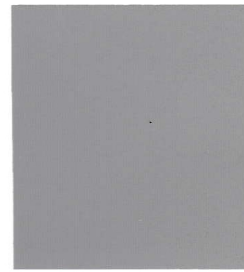

SANLEX Prodigio with excellence Lightscattering Technology that forms an exceptional layer of lights refract, generates elegant look, with a smoother surface and color that spread evenly. The perfect covering power made SANLEX Prodigio more efficient to use. It only takes 2 sufficient layers to have a flawlessly colored wall.*

*Tergantung warna asal tembok dan porositas substrat
Selalu gunakan Sanlex Alkali Resisting Primer untuk tembok baru, atau Sanlex Masonry Sealer untuk tembok lama sebagai cat dasar

*Depending on the color of the original wall and the porosity of the substrate
Always use Sanlex Alkali Resisting Primer for new walls, or Sanlex of Masonry Sealer to the old wall as a primer
